

SADIA IRFAN

BS Artificial Intelligence — Islamia University of Bahawalpur

sadiairfan0011@gmail.com | 0315-4860605 | Bahawalpur, Pakistan | [linkedin.com/in/sadia-irfan-6b65b2345](https://www.linkedin.com/in/sadia-irfan-6b65b2345)

OBJECTIVE

Motivated Artificial Intelligence student with hands-on experience in Machine Learning, Computer Vision, and Frontend Development, seeking to apply and expand technical skills through impactful, real-world AI projects while growing under the guidance of industry professionals.

EDUCATION

BS Artificial Intelligence

2023 - 2027

Islamia University of Bahawalpur (IUB), Pakistan — Currently in 7th Semester

- **Relevant coursework:** Machine Learning, Data Structures, Python Programming, Statistics, Linear Algebra, Deep Learning Fundamentals

F.Sc. Pre-Medical

2021 - 2023

Matriculation (Science)

2019 - 2021

TECHNICAL SKILLS

Languages: Python, C++, Java (basic), HTML5, CSS3, JavaScript

ML / AI: Machine Learning, Deep Learning, Computer Vision, Data Preprocessing, Feature Engineering, Model Evaluation

Libraries / Frameworks: NumPy, Pandas, Matplotlib, Scikit-learn, YOLO (Ultralytics), DeepFace, OpenCV, Streamlit

Tools & Platforms: Jupyter Notebook, VS Code, Git (basic), Google Colab, GitHub, Cloudflare Tunnels

Other: Graphic Design, Adobe Illustrator/Photoshop, Canva, Video Editing

EXPERIENCE

Machine Learning Intern — TEYZIX CORE

June 2026 - July 2026

- Built an end-to-end Customer Behavior Analytics & Churn Prediction Dashboard (Task ML-INT-1) using the Telco Customer Churn dataset
- Handled missing data and inconsistent data types, applied label encoding and StandardScaler normalization, and analyzed feature correlations via heatmaps
- Developed and evaluated multiple ML models, achieving a top baseline accuracy of 78.50% with a Random Forest classifier
- Deployed an interactive real-time inference dashboard with Streamlit; solved cloud-to-local connectivity using secure tunneling and Pickle model/scaler serialization
- Final project — Smart Electricity Consumption Prediction: designed an original dataset (500+ records, 12 household features), performed EDA using heatmaps and box plots, and implemented multiple regression models, with Linear Regression achieving an R^2 score of 0.98

Frontend Web Development Intern — CodeAlpha

1 Month

- Designed and developed 3 responsive, user-centric web applications using HTML5, CSS3, and JavaScript
- Built an Interactive Image Gallery with dynamic category filtering and a glassmorphic lightbox modal with next/previous navigation
- Developed a Modern Glassmorphism Calculator with real-time arithmetic operations and a polished dark-and-pink visual theme
- Created a fully responsive Professional Portfolio Website with mobile-first, pixel-perfect layout across all screen sizes

Graphic Design Intern (Part-Time) — International Institute of SDGs & Public Policy Research (IISPPR), Study Abroad Mentor

Sep 2025 - Dec 2025

- Completed graphic design projects for the institute, strengthening creative, communication, and professional collaboration skills

Media & Press Secretary — Students AI Club, Islamia University of Bahawalpur

Oct 2025 - Present

- Lead all media and communications operations for club events, including complete social media coverage, event poster/creative/backdrop design, and media coordination
- Received the "Outstanding Efforts & Management Award" for leading media operations at a major club event

PROJECTS

Real-Time Emotion & Gender Detector — Web App (Computer Vision)

- Built a real-time webcam-based app combining a custom-trained YOLO classification model for gender detection with the DeepFace framework for 7-class emotion recognition
- Designed a custom Streamlit UI for live image capture and deployed the pipeline on Google Colab, exposing it globally via a Cloudflare Tunnel
- Tech: Python, YOLO (Ultralytics), DeepFace, Streamlit, OpenCV, Cloudflare Tunnels | GitHub: [Inkd.in/dA4YiSc8](https://github.com/InkdIn/dA4YiSc8)

Machine Learning Course Projects

2024 - 2025

- Implemented supervised learning algorithms (Linear Regression, Decision Trees, KNN) on real datasets
- Performed data preprocessing, feature engineering, and model evaluation using Scikit-learn

Python Programming Assignments

2023 - 2024

- Built Python-based solutions for data manipulation and algorithmic problem solving; worked on OOP concepts and file handling in collaborative group projects

CERTIFICATIONS

- Machine Learning Internship — Completion Certificate, TEYZIX CORE (2026)
- Frontend Web Development Internship — Completion Certificate, CodeAlpha
- Graphic Design Internship — Certificate of Appreciation, International Institute of SDGs & Public Policy Research (IISPPR), Sep-Dec 2025
- Outstanding Efforts & Management Award — Media & Press Secretary, Students AI Club, IUB
- Actively completing online courses in Machine Learning and Deep Learning (Coursera / YouTube); studying Andrew Ng's Machine Learning Specialization

SOFT SKILLS

Fast Learner | Problem Solving | Team Collaboration | Leadership | Attention to Detail | Communication | Deadline Oriented

LANGUAGES

English — Proficient Urdu — Native
